The History Club is dedicated to exploring unique and different aspects of History that are not related in any direct way to the curriculum that is covered at Kearsney. Members of the club are encouraged to view events with a new perspective than what would otherwise be the case in the classroom environment.

As History is very much a subject that lends itself to the visual medium, the History Club meets every fortnight to look at documentaries and movies that reflect a certain theme that is embarked upon during the year (i.e. "The Space Race", "Mysteries in History", "Heroes in History", "Famous Assassinations in History" and so forth).

The club also tries to arrange outings to see movies on the circuit that have a historical flavour to them.

While it is not directly related to the History Club, the History Overseas Tours that are organized by the History Department every two years contain a lot of Pupils in Grade 11 & 12 that were past members of the History Club. History comes alive on these tours and they complement a lot of what the History Club tries to do.
