

DJ CLUB

CONVENOR:

Mr Lombard

CONTACT:

mlombard@kearsney.com or music@kearsney.com (general enquiries)

HISTORY:

DJ Club at Kearsney has been running for a number of years now. It originated out of the growing popularity of Electronic Dance Music (EDM) amongst the Kearsney boys and society's youth in general. As a means of providing a skilled performance for the socials that occur at the College, DJ Club came into existence.

CONTENT:

With the EDM industry growing and becoming ever present in this day and age, the viability for young people to make a living in the industry is ever increasing too. In DJ Club I provide the boys with hands on experience in all aspects of what it means to be a DJ; all the way from the necessary technical knowledge required to being a professional in the industry.

SKILLS DEVELOPED:

As mentioned above we cover all aspects of being a DJ, from what it takes to start up, setting up a PA system, reading a crowd, selling a product, and dreaming big!

HIGHLIGHTS OF THE YEAR:

DJ'ing at socials, at the Comrades Marathon and at the Open weekend.
